

# Dyne Therapeutics Reports First Quarter 2024 Financial Results and Recent Business Highlights

## May 2, 2024

- Additional Clinical Data from ACHIEVE Trial of DYNE-101 in DM1 and DELIVER Trial of DYNE-251 in DMD Anticipated in the Second Half of 2024 -

WALTHAM, Mass., May 02, 2024 (GLOBE NEWSWIRE) -- <u>Dyne Therapeutics, Inc</u>. (Nasdaq: DYN), a clinical-stage muscle disease company focused on advancing innovative life-transforming therapeutics for people living with genetically driven diseases, today reported financial results for the first quarter of 2024 and recent business highlights.

"I am excited about the opportunity that Dyne, its FORCE<sup>™</sup> platform and pipeline present for individuals living with serious muscle diseases," said John Cox, president and chief executive officer of Dyne. "The initial datasets announced in January from our DM1 and DMD programs were promising, and we look forward to reporting additional data from multiple, higher dose cohorts from the ACHIEVE and DELIVER trials during the second half of 2024. With a strong team and cash position, we are focused on executing across the business, including progressing towards initiating registrational cohorts in both trials by year-end."

### **Business Highlights**

- Organizational
  - In March 2024, John Cox was appointed president, CEO and a member of the Board of Directors, bringing to Dyne extensive executive experience in the biotechnology industry across various operating roles, including rare disease commercialization.
- Phase 1/2 ACHIEVE clinical trial of DYNE-101 in adults with myotonic dystrophy type 1 (DM1)
  - The ACHIEVE trial is ongoing and recently completed enrollment in the 6.8 mg/kg Q8W cohort.
  - Positive initial clinical data from ACHIEVE reported in January 2024 were featured in oral presentations at the Muscular Dystrophy Association (MDA) Clinical & Scientific Conference in March 2024 and the 14th International Myotonic Dystrophy Consortium Meeting in April 2024.
- Phase 1/2 DELIVER clinical trial of DYNE-251 in males with Duchenne muscular dystrophy (DMD) amenable to exon 51 skipping
  - The DELIVER trial is ongoing and recently completed enrollment in the 40 mg/kg Q8W cohort.
  - Positive initial clinical data from DELIVER reported in January 2024 were featured in oral presentations at the MDA Clinical & Scientific Conference in March 2024 and the American Academy of Neurology 2024 Annual Meeting in April 2024.

#### Key 2024 Milestones

• Dyne anticipates reporting data from multiple, higher dose cohorts from both the ACHIEVE and DELIVER trials in the second half of 2024 with the goal of initiating registrational cohorts by the end of 2024.

#### First Quarter 2024 Financial Results

**Cash position:** Cash, cash equivalents and marketable securities were \$453.5 million as of March 31, 2024. In addition, subsequent to March 31, 2023, the company received \$24.3 million from the sale of stock through its "at the market" offering program. The Company's cash, cash equivalents and marketable securities are anticipated to fund operations through 2025.

Research and development (R&D) expenses: R&D expenses were \$44.5 million for the quarter ended March 31, 2024, compared to \$37.5 million for the quarter ended March 31, 2023.

General and administrative (G&A) expenses: G&A expenses were \$24.6 million for the quarter ended March 31, 2024, compared to \$7.9 million for the quarter ended March 31, 2023.

**Net loss:** Net loss for the quarter ended March 31, 2024 was \$65.6 million, or \$0.81 per basic and diluted share. This compares with a net loss of \$44.2 million, or \$0.78 per basic and diluted share, for the quarter ended March 31, 2023.

#### **About Dyne Therapeutics**

Dyne Therapeutics is a clinical-stage muscle disease company focused on advancing innovative life-transforming therapeutics for people living with genetically driven diseases. With its proprietary FORCE<sup>™</sup> platform, Dyne is developing modern oligonucleotide therapeutics that are designed to overcome limitations in delivery to muscle tissue. Dyne has a broad pipeline for serious muscle diseases, including clinical programs for myotonic dystrophy type 1 (DM1) and Duchenne muscular dystrophy (DMD) and a preclinical program for facioscapulohumeral muscular dystrophy (FSHD). #### **Forward-Looking Statements**

This press release contains forward-looking statements that involve substantial risks and uncertainties. All statements, other than statements of historical facts, contained in this press release, including statements regarding Dyne's strategy, future operations, prospects and plans, objectives of management, the potential of the FORCE platform, the trial design of the DYNE-101 and DYNE-251 clinical trials, the anticipated timelines for reporting data from the DYNE-101 and DYNE-251 clinical trials and initiating registrational cohorts, plans to optimize dose and dose regimen for DYNE-101 and DYNE-251 and the sufficiency of Dyne's cash resources for the period anticipated, constitute forward-looking statements within the meaning of The Private Securities Litigation Reform Act of 1995. The words "anticipate," "believe," "continue," "could," "estimate," "expect," "intend," "may," "might," "objective," "ongoing," "plan," "predict," "project," "potential," "should," or "would," or the negative of these terms, or other comparable terminology are intended to identify forward-looking statements, although not all forward-looking statements contain these identifying words. Dyne may not actually achieve the plans, intentions or expectations disclosed in these forward-looking statements, and you should not place undue reliance on these forward-looking statements. Actual results or events could differ materially from the plans, intentions and expectations disclosed in these forward-looking statements as a result of various important factors, including: uncertainties inherent in the identification and development of product candidates, including the initiation and completion of preclinical studies and clinical trials; uncertainties as to the availability and timing of results from preclinical studies and clinical trials; the timing of and Dyne's ability to initiate and enroll patients in clinical trials; whether results from preclinical studies and initial data from early clinical trials will be predictive of the final results of the clinical trials or future trials; uncertainties as to the FDAs and other regulatory authorities' interpretation of the data from Dyne's clinical trials and acceptance of Dyne's clinical programs and the regulatory approval process; whether Dyne's cash resources will be sufficient to fund the Company's foreseeable and unforeseeable operating expenses and capital expenditure requirements; as well as the risks and uncertainties identified in Dyne's filings with the Securities and Exchange Commission (SEC), including the Company's most recent Form 10-Q and in subsequent filings Dyne may make with the SEC. In addition, the forward-looking statements included in this press release represent Dyne's views as of the date of this press release. Dyne anticipates that subsequent events and developments will cause its views to change. However, while Dyne may elect to update these forward-looking statements at some point in the future, it specifically disclaims any obligation to do so. These forward-looking statements should not be relied upon as representing Dyne's views as of any date subsequent to the date of this press release.
